NASHVILLE -- The Tennessee Department of Labor and Workforce Development today announced that the U.S. Department of Labor has approved a petition for Trade Adjustment Assistance (TAA) for Arnold Engineering. The petition covers all workers of the company in Sevierville who produced hard ferrite permanent magnets.

Trade Adjustment Assistance is a program administered in Tennessee for the U.S. Department of Labor (USDOL) by the Tennessee Department of Labor and Workforce Development. The program offers assistance to workers whose jobs have been adversely affected by imports from foreign competitors. The certification by the USDOL applies to layoffs, which began on May 30, 2001, and will remain in effect until February 11, 2004, when the petition expires.

Under the provisions of the law, TRA allows for retraining while workers are still receiving regular unemployment insurance benefits. Two separate 26-week periods of trade benefits may be obtained for workers while enrolled in approved training after regular unemployment insurance benefits have been exhausted. Workers who would not benefit from retraining may receive only one 26-week period of trade benefit payments. The program also provides allowances for attempting to secure new employment in other areas and relocating to the new place of employment. Specific instructions will be provided to affected workers through their local Workforce & Development office.

Claims for the assistance will be taken on Tuesday, March 12, or Thursday & Friday, March 14 & 15, 2002, at the Department of Labor and Workforce Development office, 405 Reagan Drive, Suite 1 in Gatlinburg. The Department of Labor and Workforce Development has sent notices to former employees informing them when they are scheduled to report.
